

## Are Your Kuffar Better than the Others?

The reaction of the murtadd Brotherhood to the meeting of the Turkish taghut with his ally the Jewish taghut split into two - between a supporter who kept quiet, and a supporter who declared his support - and only a few objected to him while ashamed. All of them, however, justified the shameful meeting with flimsy excuses like "economic relations," "necessity," "strategy," "common interests," and other words which fill the dictionary of the Brotherhood, and they had no religious justification or explanation, as they did not bother to look for it.

Some of them dove deeper, saying that the meeting is built on the principle of "separating economy from politics"! This statement clearly shows the secular tendency which does not leave the tongues of the Brotherhood's analysts, and tongues are the doorways of hearts, and every vessel spills what it contains.

Starting from this secular principle established in them, the taghut Erdogan can do whatever he pleases "politically," allying with the Jews and sending them condolences, condemning the killing of them, or bombing the Muslims in Halab and destroying their homes! or allowing the Americans to build their bases to run their war against Islam, or participate in supporting the kaffir African governments and armies against the mujahidin... he gets to commit every major sin that revokes Islam, so he can come and pray in a Hagia Safia where he sells illusion to his followers!

The murtadd Brotherhood tried - after the meeting - as if they were in the position of the "accused", to deny resembling what they called the "axis of normalization", claiming that the relation of their taghut with the Jews is for the benefit of the Ummah, while the relation of the other tawaghit with the Jews is "treason and negligence"! Thus, they differentiate between their kufr and the Kufr of others! Allah said: "Are your kuffar better than the others?" Al-Qurtubi, may Allah have mercy on him said: "It is a question that means denial, meaning that your kuffar are not better than the kuffar of the nations before you, who were doomed with their kufr".

Separating the tawaghit who neglected Allah's Shari'ah and replaced it, and allied with its enemies, into "good tawaghit and evil tawaghit", and "resisting

tawaghit and normalizing tawaghit", is an illegitimate separation which is the outcome of the corruption of the doctrine of the murtadd Brotherhood.

The crime of the murtadd Brotherhood did not stop at differentiating between the support of Erdogan to the Jews and the support of Ibn Zayd and Ibn Salman! It went further than that by criticizing supporting the Jews, - politically not religiously - and not the Christians or the Mushrikin, contradicting what Allah clearly commands in the Holy Qur'an not to support the Jews, Christians, and mushrikin. Allah said: "O you who believe! Do not take the Jews and the Christians as allies" (Al-Ma'idah: 51). And He said: "You will find that the people most hostile towards the believers are the Jews and the polytheists" (Al-Ma'idah: 82).

Allah did not forbid supporting the Jews only and allowed supporting the Christians and the mushrikin such as the Rafida of Iran and others, which is what the Brotherhood's branches are doing everywhere, supporting all the governments and states of kufr and ridda', be it for national basis or for what they perceive as their benefit. Allah commanded us to have enmity towards them all and be wary of all of them, the Jews, Christians, and mushrikin.

The Brotherhood's supervisors did not finish patching up what happened in the meeting by putting it in a frame of "economic relations," until the stance of the Turkish taghut became clearer when he officially announced the "condemnation of the latest operations" which targeted the Jews in Palestine! It is a matter which did not get any mention by all the branches of the Brotherhood.

Among the patches and justifications they made up: that their taghut Erdogan did not initiate a relationship with the Jews, he simply kept a standing relationship which he inherited from the previous ruler! It is the same fable they would have repeated had Morsi remained in power! It is an excuse uglier than the sin. If the Brotherhood believes the taghut should continue the legacy of its predecessor, then why do they insist on differentiating between their tawaghit and the tawaghit of their political enemies such as the Emirates and Bahrain, and others? And if the tawaghit of the Brotherhood will simply continue the legacy of those

before them in kufr and ridda', then what is their goal in seeking governance?

The last meeting between the two tawaghit revealed how far the murtadd Brotherhood can go in allying with any enemy of Muslims for the sake of their claimed interests, even if they were the Jews. It also revealed that the official stance of the Turkish taghut about Palestine does not differentiate between the stances of the other Arab tawaghit, as he used Palestine in the same manner! repeating empty slogans and taking advantage of the pain and blood of Muslims.

The ones who beautified the image of the Turkish taghut Erdogan and showed him as the one who will solve the Muslim issues are the scholars of evil and the shaykhs of deception who did not leave any falsehood without legitimizing it, and monstrosity without adorning it! In their regard, Shaykh Abul-Hasan al-Muhajir, may Allah accept him, said: "Among their most evil who commit the biggest kufr: the barking dogs of the scholars of deception and callers to kufr and shaykhs of lowness, who supported this sect of shirk, and the government of ridda', with all images of support, through their boards of fatwa, and media appearances.. They are the ones who blessed the ruling of the tyrant kaffir, and came to him from everywhere, congratulating him on his declared ridda' and blatant kufr... They made Kufr closer and easier, and corrupted the great religion, hence heresies spread, and desires were worshiped, and how unworthy they are of worship".

It was not just the scholars of evil who fell for the taghut Erdogan and the other tawaghit of the Brotherhood, as some of the leaders of what is known as "the jihadi stream" also fell for them, tempted by the control of the murtadd Brotherhood over multiple countries. It was a

great Fitna that pushed them to change their rhetoric and make it softer and alter their slogans and contradict their principles. They changed and substituted a lot, thinking that this is the path to "enablement" about which they dream! They doubt and have abandoned the path of the Prophet ﷺ and the wise Khulafah in ruling with Shari'ah and nothing else. And if it was not that Allah meant for the governments of the murtadd Brotherhood to fall, you would have seen more from the leaders of this stream!

We still remember the day the Islamic State showed the truth of the ruling of the murtadd Brotherhood, and it was the only one to put this sect in its right position according to Shari'ah, without flattery. How many members and groups of this stream rushed to criticize the Islamic State and describe it as Khawarij! because they separated themselves from the murtadd Brotherhood in a time when their leaders were sending letters of romance and support to the taghut of the Brotherhood in Egypt! and praying for him and praising him! for it to be clear how the Brotherhood's virus has infiltrated these groups, becoming groups of the Brotherhood in essence and the appearance of al-Qaeda.

The murtadd Brotherhood was the door of deviations which the crusaders used to infiltrate the groups in their doctrine and belief, while Allah enabled - by His grace - the Islamic State to fend off this malicious seed with weapons, words, and logic, and strived to save the generations and cleanse the hearts and minds from this virus which kills tawhid and al-Wala' wal-Bara'.

Those groups were as close to the way of the murtadd Brotherhood, and how far they were from the Islamic State and how hard they fought it. The Islamic State proves day after day by the events that its path is righteous, its flag is clear, its leaders are sincere, and its vision is deep. "That is Allah's grace, which He grants to whomever He wills, and Allah is the Possessor of limitless grace". And all praise is due to Allah, the Lord of all creation.
